BRYAN PAYS HIGH TRIBUTE TO LINCOLN IN ADDRESS

Says His Heart was Linked to Common People and His Noble Life Should be the Greatest Inspiration to Every Young Man.

Praises the Colleges and Churches That Have Declined to Accept Money From Wealthy Men, Who Have Gained Their Riches by Dishonest Methods—Declares Our Nation for More Than a Century One of the Greatest World Powers.

Washington, April 15.—For more than a century our nation has been the greatest of world powers," declared William J. Bryan last night in an address on "Abraham Lincoln" at a meeting held under the auspices of the Union Veteran Legion encampment to commemorate the forty-second anniversary of the death of the great emancipator. He reviewed the country's progress since the civil war, and declared the reunited country was only a

fulfillment of the dream of President Lincoln. Mr. Bryan paid the highest tribute to Lincoln as a man, orator and statesman. "Lincoln's heart," he said, "linked him forever with the common people and today his life should be the greatest inspiration to every young man." He said the nation's greatest asset is its schools and colleges, where the raw material is worked into the finished product of the best citizenship in the world. Mr. Bryan also addressed the

Sunday school of the First Presbyterian church early yesterday. He addressed nearly 2000 persons at the New National theater Sunday afternoon. He spoke under the auspices of the Young Men's Christian association and took for his subject, "The Prince of Peace."

Mr. Bryan concluded with praise for the colleges and churches that have declined to accept money from wealthy men, "who have gained their riches by dishonest methods." "One of our rich men," he said, "has revealed a point where he sometimes finds difficulty to find people to take his money. And that I regard as the best evidence of the growth of a moral sentiment in this country. It means something when a great church pauses, hesitates, refuses to accept the money until it knows how it was made. I believe the time will come when churches and colleges will refuse to go into partnership in the spending of money immorally made. The influence of that public opinion will be a powerful factor in the restoring of righteousness. These great institutions should say to a man, 'You did not make your money honestly; we will not share the odium with you.'"

PEACE CONGRESS CONVENED TODAY IN NEW YORK

Addresses of Welcome Made by Secretary Root, Governor Hughes and Mayor McClellan—Andrew Carnegie Presides—President Roosevelt's Letter is Read.

New York, April 15.—The National Arbitration and Peace Congress was welcomed this afternoon by Secretary Root for the Nation, Governor Hughes for the State and Mayor McClellan for the City.

Andrew Carnegie, who presided at the meeting, read a letter from President Roosevelt, saying: "I can do little more than wish you and your associates God-speed in your efforts. My sympathy with the purposes you have at heart is both strong and real. But I beseech you to remember that though it is our duty to work for peace, it is even more our duty to work for righteousness and justice. Anything in the nature of a general disarmament would do harm and not good, if it left the civilized and peace-loving people, unable to check other peoples who have no such standard."

The president also asked the peace advocates not to insist on the impossible, which puts off the day when the possible can be accomplished. He referred to work of the United States in the Philippines, Cuba and Panama as being in the interest of peace and justice. He told of Secretary Root's trip to South America "to knit together in friendship all the republics of this continent."

He said American representatives would go to the Hague Peace conference instructed to do everything in behalf of peace. The congress will continue three days. Distinguished guests from all over the country and Europe are here.

MEASURES REPUGNANT

Pope Pius Refers in Scathing Terms to the Actions of France Against the Holy See.

Rome, April 15.—In an allocution delivered to the consistory today, Pope Pius referred in scathing terms to the actions of France in the fight against the Holy See over the French separation law.

The Pontiff said: "I solemnly protest against the scandalous methods which the French republic has not scrupled to resort to. The measures are absolutely repugnant to noble and chivalrous spirit traditional to that nation."

FIVE CANDIDATES FOR SPOONER'S POSITION

Madison, Wis., April 15.—The Wisconsin Republican legislators will hold a caucus tonight to select successor to Senator Spooner. Five candidates are in the field and no one seems to have the necessary 52 votes to control the caucus. A deadlock seems probable.

COUSIN OF PRESIDENT DIES AT BRUSSELS

Washington, April 15.—Consul Gen. George G. Roosevelt at Brussels died last night. He was a cousin of the president.

FORAKER'S ATTITUDE

Towards Secretary Taft Will Determine Whether or Not He Takes the Stumps Against the Senator.

Washington, April 15.—The question whether or not Secretary Taft will take the stump in Ohio against Senator Foraker is interesting Ohio politicians and word from Taft, when he returns to Washington next week, is anxiously awaited. It is believed that it all depends on Foraker's attitude toward Taft.

If the Secretary is assailed, he is expected to answer. It is hardly probable that anything will prevent Taft's visit to the Philippines in September, as he is pledged to be at the opening of the Philippine assembly.

Three Men Fatally Shot.

New York, April 15.—Policemen George Seicher and Fred Seiche and Charles Vincenzo, a young Sicilian, were shot and mortally wounded by Salvatore Gavomale in a running fight which began in Washington square and ended in a tenement in West Third street Sunday. Seicher died soon after he was shot.

Died from a Self-Inflicted Wound.

Pittsburg, April 15.—Robert M. Crowe, who shot himself while in a box watching a performance at a local theatre last Wednesday, died Sunday. Crowe was 23 years old and a member of a prominent family. The shooting, which almost caused a panic in the theatre, is attributed to financial difficulties.

Will Use 24-Hour Time System.

St. Petersburg, April 15.—Russia is experimenting with the 24-hour time system, the hours being numbered consecutively from one to 24, instead of in two periods of 12 hours. The minister of railroads has directed that the summer time tables for the railroads to Moscow be printed in the new system.

SENATOR KNOX IS NAMED AS DELMAS' SUCCESSOR

No Move Will be Made at Present to Have Harry Thaw Admitted to Bail—Delmás is Now Out of the Case.

Jerome Plans to Send Thaw to the Criminal Insane Asylum Before Another Trial can be Held—If Admitted to Bail There is Some Doubt if Mother Can Secure Money for the Purpose—Delmás is Disgusted.

New York, April 15.—It is said today that no move will be made to have Harry Thaw admitted to bail until the question of Thaw's attorney is finally settled. Delmas is out of the case for certain, and rumor says that Senator Knox, of Pittsburg, will be selected by Mrs. Thaw as Harry's attorney.

Another story, which is unconfirmed, is that Jerome plans to send Thaw to the criminal insane asylum before another trial can take place, and that Thaw's mother is ready to help. There also seems some doubt whether, if Harry is admitted to bail, his mother could secure funds for the purpose. Other relatives are said to be averse to assisting.

New York, April 15.—With the disagreement of the jury in the trial of Harry K. Thaw the breach in the ranks of his counsel, as well as that between his wife and the members of his family, has been seriously widened.

As John B. Gleason was made the scapegoat for the blunders committed early in the trial, Mr. Gleason and his associates are now, with singular accord, heaping upon the shoulders of Delphin M. Delmas, the chief sins of omission and commission to which they attribute the

focus of all blunders in sacrificing his client's insanity defense to his ill advised plea, based on what he called "dementia Americana." One of the few things regarding which there was absolute unanimity in the recent Thaw jury was their united assertion that Mr. Delmas attempted appeal to the unwritten law fell upon unresponsive ears and was simply ignored by them.

Clifford W. Hartridge branded as untrue today statements which were brought to his attention. It was said Mr. Hartridge had refused many times to render an accounting to the Thaw family of expenditures connected with the trial, and that one item of \$15,000 to stage a production in the Thalia theater which was intended to influence the public opinion in favor of Thaw had never been explained. It was added that Mr. Delmas intended to bring suit against the Thaw family for fees not yet paid. "I cannot imagine," said Mr. Hartridge, "on what grounds Mr. Delmas expects to sue for his fee, and I am sure he has no intention, inasmuch as he received more than half the fee already, and such as is due him will be paid at the time stipulated in my contract which I hold for him."

"I investigated Mr. Delmas' record in California as carefully as I deemed necessary. I found that he had defended sixteen murder cases successfully and I knew of no occasion in which he had been charged with any misconduct. Both from reports I received from California and in conversations with acquaintances I heard of Mr. Delmas only as an exceptionally able criminal lawyer."

No application, it is said today, to admit Harry Thaw to bail, will be made until after all the differences between his counsel have been adjusted and a definite decision is made by him which must be sanctioned by his mother, as to who shall be retained and who dismissed.

CITY OF MEXICO IS SEVERELY SHAKEN

Residents are Aroused From Their Slumbers by Earthquake and Rushed Into the Streets Clad in Night Robes—No Lives Were Lost.

BULLETIN.

Washington, April 15.—Seismograph observations taken here and at Alhambra indicate a later and more severe earthquake than that reported in the City of Mexico. It is probably in the extreme southern part of North America or in South America.

City of Mexico, April 15.—Aroused from slumber by the severest earthquake felt here in years, thousands of persons thronged the streets in a panic, afraid to re-enter their homes. Many of them are still clad only in their night robes.

The shock lasted for four and half minutes and was a long swinging motion. The telegraph wires are out of commission. The

walls of many buildings were cracked, but no structures in the business section of the city were destroyed. As far as can be learned no lives were lost in the city. Shocks are reported very heavy south of Mexico City but no information has been received as to any loss of life in that district.

Washington, April 15.—Chief Moore of the Weather Bureau issued a bulletin announcing that an earthquake of great intensity was recorded by the Seismograph this morning at fourteen minutes after one o'clock and continuing over two hours.

The greatest motion of the earth was from east to west. There was also a motion from north to south.

PORSMOUTH STRIKERS RETURN TO WORK

Portsmouth, O., April 15.—The Portsmouth Steel company mill employees out on a strike returned to work Monday. The company acceded to the demands to use the old scale until July 1.

The Larger View.

"Up around the Connecticut coast," Mr. Huggins will remark, with a bland, blue eye, "there are schooners in the business that are 150 years old and still staunch vessels."

You must not murmur at this. It is best not to gainsay sea-folk; they are tempestuous and squally, and besides, it would do no good. There is something about the salt sea air that makes hyperbole and the aggravated use of the multiplication table involuntary. The size of a fish, the view of a sea-serpent, the length of a swim—all these things are known to expand and increase in the briny air as a flower develops in sunshine; it is something childlike, ingenious, natural. Neptune is the father of mendacity.—Broadway Magazine.
